```c
#include <stdio.h>
#include <conio.h>
void main()
{
    int i, j, rows;
    printf (" Enter a number to define the rows: \n ");
    scanf("%d", &rows);
    printf("\n");
    for (i = 1; i <= rows; ++i) // outer loop
    {
        for (j = 1; j <= i; ++j) // inner loop
        {
            printf ("* "); // print the Star
        }
        printf ("\n");
    }
    getch();
}
```
Output

```
*
* *
* * *
* * * *
* * * * *
* * * * * *
* * * * * * *
```
